

Mill Stone Pattern revisions 3/22/22

If you are working from a copy of this pattern purchased before the date listed above, please take into account the following corrections:

Text on the second page should read:

Continue working through Charts B–E, switching to longer circular ndls when sts no longer fit comfortably on current needle. After completing Rnd 147 of Chart E, you'll have 84 sts in each segment and a total of 672 sts on your needles. As you work the short rows of Chart F, you'll now work back and forth with RS and WS rows within each segment. After working your last short row, knit 44 sts to next marker (leaving your wraps as you come to them) and continue working Chart F again from Rnd 1 in the next segment. When you've completed working Chart F eight times and worked to your BOR marker, switch to CC yarn to work an I-cord Bind Off, removing markers as you come to them. Block aggressively to ensure an even, circular shape.

Chart F is the crescent shaped short row chart.
